Water Audit & Water Loss Improvement Steps

Steps taken in the audit period timeframe to increase data source accuracy, reduce real losses, and/or reduce apparent losses, as informed by the water audit.

The District is in the process of replacing all production meters w/magnetic flow meters to provide more accurate reads and these meters will be calibrated annually. The District responds immediately to main breaks and leaks and repairs these on the day of occurrence. Customer meters are replaced as needed when broken or leaking meters are identified. The District has a 5-year CIP program to eliminate aging 1920's water mains and to repair leaking reservoirs.
