2017 AWWA Water Audit Level 1 Validation

Water System Name: Los Angeles-Duarte System **Water System ID Number: 1910186** **Water Audit Period: CY2017**

Water Audit & Water Loss Improvement Steps:

Steps taken in preceding year to increase data validity, reduce real loss and apparent loss as informed by the annual validated water audit:

Production meters in Main Basin are tested every other year. The Los Angeles County District is currently replacing all its direct read meters with AMR/AMI meters. Production meters are read weekly. In addition, 4 inch meters are tested every two years, 3 inch meters are tested every 3 years and 2 inch and 1.5 inch meters are tested every 4 years. The District continued a pilot leak detection program in Duarte in 2017. The program should be completed in 2018 and a final report issued.
